

# RECYCLING

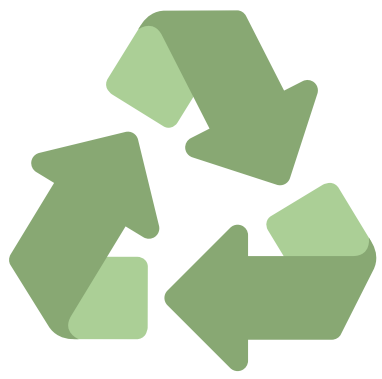

## How to recycle

1. Collect recyclable items
2. Take to your building's recycling area(s)
3. Place recyclables into the correct bin(s)
4. Repeat

## Which materials

- Paper
- Plastic
- Metal
- Cardboard
- Glass (dispose of separately)

# RECYCLING

## FAQ

Q - Why can't I mix glass with other recyclables?

A - Because it can injure people processing recyclables at the facility. Place glass in a separate bin.

Q - Can I put dog food bags in the recycling bin?

A - No, the plastic they are made with is not recyclable.

Q - Where does styrofoam go?

A - Unfortunately styrofoam is not recyclable currently. Throw it in the trash.

## Best Practices

Make sure your recyclables are clean and dry

No bags. Don't bag your recyclables or throw grocery bags in recycling - they tangle up equipment

Close the loop. Buy products with recycled content in them
